

PERSONAL DETAILS	
	<p>Name: RAKESH PRAJAPATI</p> <p>Address: In den Mühläckern 35,74196 Neuenstadt, Baden-Württemberg,Germany</p> <p>Mobile : +49 176 66145047</p> <p>Email : rp151090@gmail.com</p> <p>LinkedIn : https://www.linkedin.com/in/rakesh-prajapati-83124238</p> <p>Skype ID: rp151090</p> <p>Languages: English, German (A2)</p> <p>Nationality: Indian Gender: Male Date of Birth: 15/10/1990</p>
	
PERSONAL STATEMENT	
	<ul style="list-style-type: none"> • Technically competent professional offering 12+ years of progressive experience in software development, full stack development and project management • Hands-on experience in design, development, integration, testing, upgrading, debugging and delivery of web applications and software to increase efficiency, data quality, scope, operability and flexibility • Adept at project management, operations management, client liaison, team management, project initiation, planning, estimation & project execution, budgeting, resource planning and execution, requirement gathering & analysis, and documenting functional and technical specifications • Proficient in gathering accurate requirements and working closely with stakeholders to prioritize tasks and improvise the scope of development • Excellent organizational and communication skills, including the ability to work in a fast-paced environment and across multiple large-scale projects • Conversant in researching, suggesting and implementing new solutions in performance and scalability improvement of backend services
SKILL SET	
	<p>Software Development Web Development & Design Project Management Software Design Software Architecture Client Relationship Requirement Gathering Database Migration Documentation Project Migration Debugging Programming/ Testing Project Planning Time Management Full Stack Development Scrum Master Team Management</p>
TECHNICAL SKILLS	
	<p>Operating System LINUX, WINDOWS, REDHAT, CENTOS, UBUNTU, MACOS</p> <p>Professional Skills PHP, OOP, MYSQL, SQL, MONGODB, SHELL SCRIPTING, APACHE, NGINX, SOAP, WEB SERVICES, REST APIS, REACT.JS, HTML5, AJAX, JQUERY, CSS3, BOOTSTRAP, JSON, XML, JAVASCRIPT, ANGULAR, REACT.JS, RABBITMQ, PYTHON, LAMP, WAMP, XAMPP</p> <p>Academic Skills JAVA, C, C++, MS-SQL, JSP</p> <p>Other Skills LARAVEL, CODEIGNITER, WORDPRESS, GIT, AWS, AZURE, COMPOSER, JIRA, SCRUM, KANBAN, CMS, MEMCACHED, MARIADB, ELASTIC STACK, DYNAMODB, REDIS, DOCKER, JENKINS, TERRAFORM, GITHUB ACTIONS, ANSIBLE, KUBERNETES, SERVICENOW</p>
PROFESSIONAL EXPERIENCE	
	<p>Senior Software Engineer / Software Architect F.A.S.T. GmbH (Stuttgart) Jan 2024 – Present</p> <p>Project: Water cloud</p> <p>Technologies Used: PHP, JOOMLA, SHELL SCRIPT, PYTHON, HTML, CSS, JAVASCRIPT, AJAX, MYSQL, RABBITMQ, COMPOSER, JIRA, AWS, LINUX, GIT, JAVA, JIRA, TRELLO, SERVICENOW, CONFLUENCE</p>

Responsibilities:

- Documentation, Coding of the project modules, Database designs
- I am managing teams of 12 employees, overseeing projects to ensure progress
- Researching, designing, implementing, and managing software programs
- Testing and evaluating new programs
- Identifying areas for modification in existing programs and subsequently developing these modifications
- Writing and implementing efficient code
- Developing quality assurance procedures
- Deploying software tools, processes, and metrics
- Maintaining and upgrading existing systems
- Research, Design, Implement, and Manage Software Programs
- Conducted client consultations for business and technical requirements
- Designed and implemented tailored, robust technical solutions
- Architected scalable systems, selecting appropriate technologies
- Led implementation of complex solutions, ensuring seamless integration
- Developed custom modules for enhanced system functionality
- Created/maintained project plans, ensuring timelines and budgets met
- Coordinated cross-functional teams, providing leadership throughout projects
- Conducted code reviews, ensuring compliance with standards
- Diagnosed and resolved complex technical issues, maintaining 95% client satisfaction

Senior Software Engineer | Larsen & Toubro Infotech Ltd. (Berlin)

Sep 2018 – May 2023

Project: MVI (Music Video Ingestion) | Client: Netflix & Paramount

Technologies Used: PHP, SHELL SCRIPT, PYTHON, HTML, CSS, JAVASCRIPT, AJAX, MYSQL, RABBITMQ, COMPOSER, JIRA, AWS, LINUX

Project: Bellator MMA | **Client:** Viacom & Paramount

Technologies Used: PHP, SHELL SCRIPT, HTML, CSS, JAVASCRIPT, MYSQL, LARAVEL, GITHUB ACTIONS, JIRA, LINUX

Project: MARIA | **Client:** Viacom

Technologies Used: PHP, SHELL SCRIPT, HTML, CSS, JAVASCRIPT, AJAX, MYSQL, GIT, DOCKER, LARAVEL, LINUX

Responsibilities:

- Documentation, Coding of the project modules, Database designs
- I have managed teams of 18 employees, overseeing projects to ensure progress, and I have gained experience handling major clients such as **Netflix, Paramount, Sony, and Viacom.**
- Researching, designing, implementing, and managing software programs
- Testing and evaluating new programs
- Identifying areas for modification in existing programs and subsequently developing these modifications
- Writing and implementing efficient code
- Determining operational practicality
- Developing quality assurance procedures
- Deploying software tools, processes, and metrics
- Maintaining and upgrading existing systems
- Training users
- Working closely with other developers, Clients, UX designers, business and systems analysts

Senior Software Engineer | Client: Saint-Gobain

Aug 2016 – Sep 2018

Project: SOC (Security Operations Center)

Technologies Used: ANGULAR, PHP, SHELL SCRIPT, LARAVEL, HTML, JAVASCRIPT, AJAX, MYSQL, LINUX

Project: IGreen-Watch

Technologies Used: PHP, SHELL SCRIPT, LARAVEL (framework), HTML, CSS, JAVASCRIPT, AJAX, MYSQL, REDIS

Project: AVAT

Technologies Used: PHP, SHELL SCRIPT, MySQL, REACT JS

Responsibilities:

- Researching, designing, implementing, and managing software programs
- Testing and evaluating new programs
- Identifying areas for modification in existing programs and subsequently developing these modifications
- Writing and implementing efficient code
- Determining operational practicality
- Developing quality assurance procedures
- Deploying software tools, processes, and metrics
- Maintaining and upgrading existing systems
- Training users
- Working closely with other developers, Clients, UX designers, business and systems analysts

Senior Software Programmer | Route Mobile Ltd.

Jul 2014 - Jul 2016

Project: E-ticket System

Technologies Used: PHP, HTML, CSS, JAVASCRIPT, MySQL, LINUX

Project: Distributor /Reseller /Web-client web-portal

Technologies Used: PHP, HTML, CSS, JAVASCRIPT, AJAX, MYSQL, LINUX

Project: E-commerce (Online shop)

Technologies Used: PHP, MYSQL, HTML, CSS, JAVASCRIPT, LINUX, REDIS, LINUX

Project: www.routemobile.com

Technologies Used: PHP, WORDPRESS, MYSQL

Responsibilities:

- Researching, designing, implementing, and managing software programs
- Testing and evaluating new programs
- Identifying areas for modification in existing programs and subsequently developing these modifications
- Writing and implementing efficient code
- Developing quality assurance procedures
- Working closely with other developers, Clients, UX designers, business and systems analysts

Software engineer/Developer | Client: Ness Technologies

Feb 2014 - May 2014

Project: Pearson QTI

Technologies Used: XML, HTML, HTML5, CSS, CSS3, JAVASCRIPT, JQUERY

Responsibilities:

- Researching, implementing, and managing software programs
- Documentation, Coding of the project modules, Database designs
- Determining operational practicality

Software engineer/Developer trainee | Infinitech**Oct 2013 -Jan 2014****Technologies Used:** PHP, CODEIGNITER, WORDPRESS, HTML, HTML5, CSS, CSS3, JAVASCRIPT, JQUERY, MYSQL**Certification:**

- AWS Certified Solutions Architect **Mar 2021 - Nov 2021**
- DevOps Foundation Certification **Dec 2021 - Oct 2022**
- Project Management Professional (PMP) **Sep 2024 - Nov 2024**

KEY DELIVERABLES

- Liaising with the users to understand their requirements and identify efficiency opportunities to customize, upgrade and innovate the project requirements to functional specifications as per their standards & guidelines
- Proficiency in all stages of Software Development Life Cycle (SDLC) from requirement analysis to planning, design, execution, reporting, cost-benefit analysis, solution architect, documentation and tracking it to closure
- Demonstrated expertise in managing & adhering to project schedules and ensuring the project is delivered on time and under budget while maintaining quality standards
- Precisely enabling a structured project roadmap that aligns with organization strategy & project objective and defining solutions which meets stakeholder's requirements with minimum development effort and optimum application performance
- Strong knowledge in creating technical documentation for the application
- Actively involved in Debugging - Defect tracking and bug fixing
- Engaging in preparation and execution of user interface documents, project-based environments and functional specifications

EDUCATION

- Bachelor of Engineering in Information Technology from Mumbai University (2012)
